Procurement Engineer Job Description - JobHero

1.2 Ethical Procurement and Modern Slavery

Construction and maintenance activity has been identified as both high risk and high impact in terms of the environmental, social and economic impacts. The university is committed to Ethical Procurement and addressing the issues associated with Modern Slavery and Human Trafficking within

Construction Projects and Procurement Procedures

Engineering, procurement, and construction (EPC) contracts are the most common form of contract used to undertake construction works by the private sector on large-scale and complex infrastructure projects. Under an EPC contract a contractor is obliged to deliver a complete facility to a developer who need only turn a key to start operating the facility, hence EPC contracts are sometimes ...
